

Jayant Sharma

Full Stack AI Engineering Intern | Building Scalable AI Systems, RAG Pipelines, and Distributed Web Applications

Vellore, India | +91-9024137069 | jayantsharma3228@gmail.com
LinkedIn | GitHub | Portfolio

Professional Summary

Computer Science undergraduate with hands-on experience building full-stack and AI applications using **Python, TypeScript, Java, FastAPI, React, Next.js**, and **PostgreSQL**. Experienced in developing scalable backend services, REST APIs, RAG-based AI applications, and distributed systems through industry internships and open-source contributions. Passionate about backend engineering, AI systems, and building reliable software that scales.

Education

Vellore Institute of Technology, Vellore
B.Tech in Computer Science and Engineering

Expected 2027

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, SQL **Frontend:** React.js, Next.js, Tailwind CSS, Redux, Zustand **Backend:** Node.js, Express.js, FastAPI, REST APIs, Authentication **AI/ML:** OpenAI API, RAG Pipelines, Prompt Engineering, ChromaDB, Vector Search **Databases:** PostgreSQL, MongoDB, Redis, ChromaDB **DevOps & Cloud:** Docker, Docker Compose, Git, GitHub, AWS (Basics) **Core CS:** Data Structures, Algorithms, DBMS, OS, OOPs

Experience

Marvedge — Full Stack Engineering Intern

Mar 2026 – Present

GitHub | Live

- Built and maintained features for a SaaS platform using Next.js, TypeScript, PostgreSQL, and backend APIs.
- Developed browser-based audio and video recording workflows using the MediaRecorder and Web Audio APIs.
- Worked on a distributed media processing pipeline using Redis, BullMQ, and FFmpeg, helping reduce processing time by **20%**.
- Developed REST APIs for media uploads, asynchronous processing, and cloud storage integration.
- Collaborated with the engineering team to debug issues, review code, and deliver production-ready features.

Open Source Contributor — SearXNG

2026

Python, Typescript | Open Source | 25k+ GitHub Stars

- Contributed bug fixes and improvements to SearXNG, a popular open-source metasearch engine with over **25,000 GitHub stars**.
- Investigated reported issues, reproduced bugs, and submitted pull requests after discussing solutions with project maintainers.

Projects

AI Resume Optimization & Career Assistant Platform

GitHub | Live

Next.js, FastAPI, PostgreSQL, ChromaDB, OpenAI API, Docker

- Built an AI-powered resume assistant using RAG to provide resume analysis and job-specific recommendations.
- Developed REST APIs with FastAPI and PostgreSQL for authentication, token usage tracking, and document management.
- Used ChromaDB and OpenAI embeddings to perform semantic search and retrieve relevant resume context.
- Created a responsive multi-step interface in Next.js with real-time AI feedback and PDF preview generation.
- Containerized the application using Docker and Docker Compose for consistent local development and deployment.

PredictX: Autonomous AI-Powered Prediction Market Fund

GitHub

React, TypeScript, Bun, PostgreSQL, Drizzle ORM, Gemini GenAI, Solana RPC

- Built an AI-powered prediction market platform that analyzes news using Gemini and suggests market opportunities.
- Developed a pre-trade validation layer and double-entry bookkeeping service to enforce fund risk limits and transaction integrity.
- Integrated live market data from the Polymarket Gamma API and automated liquidity seeding for continuous market synchronization.
- Implemented real-time portfolio updates using Bun WebSockets, enabling instant synchronization between the backend and frontend.
- Designed the backend using PostgreSQL and Drizzle ORM to efficiently manage portfolios, transactions, and market data.

Leadership

- Technical Member — Mozilla Firefox Club VIT, contributing to platforms serving **10,000+ users**.
- Organized and managed multiple technical hackathons, workshops, and engineering events across campus.

Problem Solving

- Solved **300+ DSA problems**, including **120+ medium-level problems** across graphs, DP, and recursion.

Certifications

- Oracle Certified Professional (OCP)** — Oracle
- IBM Java Developer Professional Certificate** — IBM
- Essential Google Cloud Infrastructure: Core Services** — Google Cloud
